

Recommended preheating instructions for:

Lasagna & Mac N'Cheese

- Thaw Lasagna/Mac overnight in fridge
 - Preheat oven to 375 degrees F
- Peel 1 inch of the plastic from the corner
- Put the tray on cookie sheet, and on the middle oven rack
 - Bake for 45 minutes
- Bake for 55 minutes if taken directly out of the freezer
 - To brown the cheese, carefully remove plastic and bake for 5-10 mins
 - Take out of the oven, and let it stand for 10 minutes before serving
